

**CEODEUX**  
**MEDITEC**

High pressure brass cylinder valve for various medical gases, O-ring seal type, top outlet, CE marked

## KEY FEATURES

- High pressure valve to join into piping systems with connection G 3/4"

## STANDARD SPECIFICATION

Working pressure pmax	232 bar
Temperature range	-20°C... +65°C
Helium leak rate at pmax	
• internal	10 <sup>-3</sup> mbarl/sec
• external	10 <sup>-3</sup> mbarl/sec
Seat orifice size	2.2 mm
Parts	Material
• seat	Polyamide
• O-ring	EPDM
• body and handwheel	chrome plated brass
• C <sub>v</sub>	0.10
• Weight	≅700 g

#### MANUFACTORY

- Oxygen cleaned
- Markings
- Packaging

$\pi$ /CE 0029 – Gas Working pressure  
Manufacturing date ww/yy  
Individual sealed bag

#### OPTIONS

- Natural brass
- Plastic handwheel

#### ORDERING

When ordering, please specify:

- Serial number or range
- Type of gas
- Connection
