

CEODEUX  
MEDITEC

Mini post valve for medical gases and oxygen  
with yoke outlet connection (PIN INDEX System),  
O-ring seal type, orifice diameter 2.5 mm

988100

## KEY FEATURES

- Extra small, low cost, high pressure brass cylinder valve for all standardized medical gases with Pin Index yoke outlet connection
- Key-operated
- Compact low torque valve ( limited cycle-life)

## STANDARD SPECIFICATION

Working pressure pmax	200 bar
Temperature range	-25°C... +70°C
Helium leak rate at pmax:	
• internal	10 <sup>-3</sup> mbarl/sec
• external	10 <sup>-3</sup> mbarl/sec
Seat orifice size	2.5 mm
Material	
• key-operated	6 mm key
• seat	PA 6.6
• O-ring	EPDM
• body	chrome plated brass

### OPTIONS

- Chrome plating
- Burst disc safety device
- Fusible metal safety device
- Filter

### ORDERING

When ordering, please specify:

- Serial number or range
- Type of gas
- Connection
- Options and special features
- Operating system (handwheel or key)
- Safety burst pressure
